Hello,

Welcome to our 2026 annual Bull Sale.

This group of bulls represents 43 years of selection and culling to provide the very best product you can get. They are selected from a group of 130 bulls and are truly the upper cut of performance and function

The easy winter has been pretty enjoyable, and you can see that reflected in the performance of these bulls.

It's truly something to be grateful for, when we get to do business with our friends and long time customers. Your support and faith in our program has allowed us to grow and continue to improve, and we are thankful.

If any of us can be of assistance or answer any questions, of course, please ask.

Thank you

Mike

What will you see when you look at a ★ Roster Charolais Bull? ★

Our Herd Bulls will be long made, Deep bodied, and well muscled. Good headed with structural correctness and an emphasis on sound feet and legs. Fertility and libido are, of course, what makes the whole process work. They are equally important. Quiet disposition translates into less headaches and more potential profit, so every herd bull we have is easy to handle and quiet.

BUY BACK PROGRAM

Our Buy Back Program is very simple. Contact us, in advance, about when and where you decide to market your calves. We will be there to bid on them. While we may not get all the calves bought. We help insure our customers, that their calves will bring full market value, for their weight on sale day. This program can and has added significant value to our customers' calves, making our bulls an even better value to you.

This system has really developed well for us and our customers. It is important to note that we aren't acting as order buyers. We are committing our own resources for the advancement of our program and the benefit of our customers.

The bulls are available for viewing at the Farm

The catalog is available at

www.rostercharolais.com

There are also many photos on our FaceBook page

The sale videos are available on DVAcution

www.dvauction.com

All the bulls in the sale were on test in the same group for 150 days. They were fed a medium megacal developer ration the feed program is not designed for maximum gain in a short period but for the long term welfare and longevity of the bull. We have received many positive comments over the years about how well the bulls hold up for our customers. We are convinced this is a better way to develop our bulls instead of trying to see how big or heavy we can make them. Our philosophy is to offer bulls with adequate growth in a crossbreeding situation. We feel the **every** bull in the sale meets this criteria.

All the bulls in this sale have been tested negative for persistent infection (PI) of BVD. All the bulls in the sale have been fertility tested.

Many of our customers have us keep the bulls at our place after the sale for later delivery. They are returned to the same pens and are put on the same ration. This helps in their continued development for breeding season. This is especially important for some of the younger bulls. At delivery time, we almost always here the same comment "Boy, he sure got bigger."
